

Plot 35m South of Feagour Cottage, Kinlochlaggan, North Laggan, Newtonmore

Set in attractive Woodland setting.

Semi-rural location.

Extends to approx 0.52 acre

Plot with full planning permission.

Mains electricity, drainage and sewage connections are close by.

Planning Permission Reference No: 21/03811/FUL.

OFFERS IN THE REGION OF £60,000

PLOT:

McIntyre & Company are delighted to be marketing development land at Kinlochlaggan, Nr Newtonmore. The site has full planning permission for a 1.1/2 storey dwelling in an attractive semi-rural location surrounded by woodland trees. Details of the full Planning Permission can be found on the Highland Council Website:

https://www.highland.gov.uk/info/180/planning_-_applications_warrants_and_certificates/143/planning_permission/4

Specifications for the house build will be made available for any prospective buyer of the plot should they wish to utilize them.

The plot extends to approximately 0.52 acre and the successful purchaser will be required to satisfy themselves on the availability of services. However, the vendor will permit the buyer to connect to his private septic tank if required, there are no other properties connected to the tank. Access for mains electricity connections are available close by. The vendor will authorise access across his land for connection purposes and necessary and relevant servitude rights will be granted in title.

The vendor currently has a water supply from a private well, however, he would consider a joint venture with the buyer to upgrade (bore whole/filtration system).

The land has never been a registered croft and therefore it is not subject to any crofting regulations.

The boundary of the plot will be marked out for ease of recognition.

LOCATION:

Little may be known about the semi-rural location of Kinlochlaggan although the area is steeped in history and boasts fine views, an abundance of wildlife and stunning waterfalls. The town has a well supported Coffee Shop that hosts theme nights.

Nearby attractions include Pattock Falls with its nearby white sandy beach. Wolftrax Mountain Biking Trails with over 20miles of purpose built tracks through Laggan Forests that take in lovely views of the Monadhliath Hills and an Ancient Hill Fort.

Walking and cycling tracks are numerous in the area and easily accessible for all levels of walkers and cyclists.

The village of Newtonmore is just 11 miles away where full amenities are available to include a variety of independent shops, supermarkets, restaurants, bars and a petrol station. There is a train station with links to Glasgow and Edinburgh.

Newtonmore is renowned for its Shinty and is home to The Wildcat Experience - a visitor attraction specially aimed at families with children. The attraction is based on a community arts project whereby everyone in the village is encouraged to get involved. There is a golf course, bowling green as well as numerous outdoor pursuits.

DIRECTIONS:

Plot 35m South of Feagour Cottage, Kinlochlaggan, North Laggan, Newtonmore, PH20 1BX.

From Fort William: head North towards Inverness. On reaching Spean Bridge turn right onto the A86, passing Roybridge, Laggan Dam and Craig Meagaidh Nature Reserve (approximately 22miles). Continue passing Pattock Falls and a sign for Feagour Cottage on your right. The plot is slightly further along on the left with open access (not gated) keep to the left side for access and parking.

From Inverness: Take the A9 to Kingussie and join the A86 then take the turn off for the A86, signposted Kingussie and Newtonmore. Travel through Newtonmore and turn right at the fork, signposted Laggan and Fort William. Continue for approximately 8.5 miles, following signs for Laggan Wolftrax. The plot is on your right

Town and Country Planning (Scotland) Act 1997 (As Amended)
Planning Etc. (Scotland) Act 2006

DECISION NOTICE

Erection of house
Land 35M South Of Faegour Cottage, Kinloch, Laggan

The Highland Council in exercise of its powers under the above Acts **grants planning permission** for the above development in accordance with the particulars given in the application and the following documents:

Document Type	Document No.	Version No.	Date Received
Elevations	EL 101		07.08.2021
First Floor Plan	GA 101		07.08.2021
Ground Floor Plan	GA 101		07.08.2021
Site Layout Plan	SA 101		07.08.2021
Location Plan	SL 101		31.08.2021
General Plan	SA 102		31.05.2022
Visibility Splay Plan	VS 101		31.05.2022

CONDITIONS AND REASONS

This permission is granted subject to the following conditions and reasons:

- The development to which this planning permission relates must commence within THREE YEARS of the date of this decision notice. If development has not commenced within this period, then this planning permission shall lapse.

Reason: In accordance with Section 58 of the Town and Country Planning (Scotland) Act 1997 (as amended).
- No development or work shall commence until a detailed specification for all proposed external materials and finishes (including trade names and samples where necessary) has been submitted to, and approved in writing by, the Planning Authority. Thereafter,

Dated: 25th July 2023

David Mudie
.....
Area Planning Manager

PLANNING PERMISSION

Reference No: 21/03811/FUL

development and work shall progress in accordance with these approved details.

Reason: To ensure that the development is sensitive to, and compatible with, its context and local architectural styles.

- Prior to the commencement of the development, the existing access on the A86 trunk road shall be upgraded in accordance with Access Drawing SA 102, to the satisfaction of the Planning Authority, in consultation with the Roads Authority.

Reason: To ensure that vehicles entering or exiting the access can undertake the manoeuvre safely and with minimum interference to the safety and free flow of traffic on the trunk road

- Prior to the commencement of the development, visibility splays, as generally illustrated by Highland Rural Visibility Splays Drawing VS 101, shall be provided and thereafter maintained to the satisfaction of the Planning Authority, after consultation with Transport Scotland.

Reason: To ensure that drivers of vehicles leaving the site are enabled to see and be seen by vehicles on the trunk road carriageway and join the traffic stream safely.

- There shall be no drainage connections to the trunk road drainage system.

Reason: To ensure that the efficiency of the existing drainage network is not affected

- Prior to the development commencing the applicant shall submit the following information, as described in Planning Advice Note (Private Water Supplies), for the written approval of the Planning Authority.

- A plan of the development and the water supply.
- A written report from a competent person which demonstrates that there will be a sufficient piped supply of wholesome water to meet the demands of all properties on the supply.
- Details of any water treatment systems.
- Prior to occupancy, a wholesome supply of water shall be provided to the development. A water test shall be required to determine the water quality.

Reason: To ensure that an adequate private water supply can be provided to meet the requirements of the proposed development and without compromising the interests of other users of the same or nearby private water supplies.

- No development shall commence until details of a scheme of hard and soft landscaping works have been submitted to, and approved in writing by, the Planning Authority. Details of the scheme shall include:
 - All earthworks and existing and finished ground levels in relation to an identified fixed datum point;
 - A plan showing existing landscaping features and vegetation to be retained;
 - The location and design, including materials, of any existing or proposed walls, fences and gates;
 - All soft landscaping and planting works, including plans and schedules showing the location, species and size of each individual tree and/or shrub and planting densities;

and

- v. A programme for preparation, completion and subsequent on-going maintenance and protection of all landscaping works.

Landscaping works shall be carried out in accordance with the approved scheme. All planting, seeding or turfing as may be comprised in the approved details shall be carried out in the first planting and seeding seasons following the commencement of development, unless otherwise stated in the approved scheme.

Reason: In order to ensure that a high standard of landscaping is achieved, appropriate to the location of the site.

8. No development shall commence until full details of all surface water drainage provision within the application site (which should accord with the principles of Sustainable Urban Drainage Systems (SUDS) and be designed to the standards outlined in Sewers for Scotland Fourth Edition, or any superseding guidance prevailing at the time) have been submitted to, and approved in writing by, the Planning Authority. Thereafter, only the approved details shall be implemented and all surface water drainage provision, as it relates to, or is relied upon by, an individual phase, shall be completed prior to the first occupation of any of the development within that phase.

Reason: In order to ensure that water infrastructure is carefully managed and provided timeously, in the interests of public health and environmental protection.

None

Section 75 Obligation

None

IMPORTANT INFORMATIVES

Please read the following informatives and, where necessary, act upon the requirements specified:

REASON FOR DECISION

The proposals accord with the provisions of the Development Plan and there are no material considerations which would warrant refusal of the application.

FOOTNOTE TO APPLICANT

Initiation and Completion Notices

The Town and Country Planning (Scotland) Act 1997 (as amended) requires all developers to submit notices to the Planning Authority prior to, and upon completion of, development. These are in addition to any other similar requirements (such as Building Warrant completion notices) and failure to comply represents a breach of planning control and may result in formal enforcement action.

1. The developer must submit a Notice of Initiation of Development in accordance with Section 27A of the Act to the Planning Authority prior to work commencing on site.
2. On completion of the development, the developer must submit a Notice of Completion in accordance with Section 27B of the Act to the Planning Authority.

Copies of the notices referred to are attached to this decision notice for your convenience.

Dated: 25th July 2023

PLANNING PERMISSION

Reference No: 21/03811/FUL

Flood Risk

It is important to note that the granting of planning permission does not imply there is an unconditional absence of flood risk relating to (or emanating from) the application site. As per Scottish Planning Policy (paragraph 259), planning permission does not remove the liability position of developers or owners in relation to flood risk.

Scottish Water

You are advised that a supply and connection to Scottish Water infrastructure is dependent on sufficient spare capacity at the time of the application for connection to Scottish Water. The granting of planning permission does not guarantee a connection. Any enquiries with regards to sewerage connection and/or water supply should be directed to Scottish Water on **0845 601 8855**.

Septic Tanks & Soakaways

Where a private foul drainage solution is proposed, you will require separate consent from the Scottish Environment Protection Agency (SEPA). Planning permission does not guarantee that approval will be given by SEPA and as such you are advised to contact them direct to discuss the matter (**03000 996699**).

Private Water Supply

The applicant should be aware that if the premises is to be used for a commercial purpose (such as a holiday let), then, under the requirements of The Water Intended for Human Consumption (Private Supplies) (Scotland) Regulations 2017, The Highland Council must add it to the register of private water supplies. The supply must be risk assessed and the water tested on an annual basis to ensure it meets regulatory standards. There is a charge for this statutory function.

Works within the Trunk Road

The applicant should be informed that the granting of planning consent does not carry with it the right to carry out works within the trunk road boundary and that permission must be granted by Transport Scotland Roads Directorate. Where any works are required on the trunk road, contact details are provided on Transport Scotland's response to the planning authority which is available on the Council's planning portal

Trunk road modification works shall, in all respects, comply with the Design Manual for Roads and Bridges and the Specification for Highway Works published by HMSO. The developer shall issue a certificate to that effect, signed by the design organisation

Trunk road modifications shall, in all respects, be designed and constructed to arrangements that comply with the Disability Discrimination Act: Good Practice Guide for Roads published by Transport Scotland. The developer shall provide written confirmation of this, signed by the design organisation. The road works which are required due to the above Conditions will require a Road Safety Audit as specified by the Design Manual for Roads and Bridges

Any trunk road works will necessitate a Minute of Agreement with the Trunk Roads Authority prior to commencement

Mud & Debris on Road

Please note that it is an offence under Section 95 of the Roads (Scotland) Act 1984 to allow mud or any other material to be deposited, and thereafter remain, on a public road from any vehicle or development site. You must, therefore, put in place a strategy for dealing with any material deposited on the public road network and maintain this until development is complete.

PLANNING PERMISSION

Reference No: 21/03811/FUL

Construction Hours and Noise-Generating Activities

You are advised that construction work associated with the approved development (incl. the loading/unloading of delivery vehicles, plant or other machinery), for which noise is audible at the boundary of the application site, should not normally take place outwith the hours of 08:00 and 19:00 Monday to Friday, 08:00 and 13:00 on Saturdays or at any time on a Sunday or Bank Holiday in Scotland, as prescribed in Schedule 1 of the Banking and Financial Dealings Act 1971 (as amended).

Work falling outwith these hours which gives rise to amenity concerns, or noise at any time which exceeds acceptable levels, may result in the service of a notice under Section 60 of the Control of Pollution Act 1974 (as amended). Breaching a Section 60 notice constitutes an offence and is likely to result in court action.

If you wish formal consent to work at specific times or on specific days, you may apply to the Council's Environmental Health Officer under Section 61 of the 1974 Act. Any such application should be submitted after you have obtained your Building Warrant, if required, and will be considered on its merits. Any decision taken will reflect the nature of the development, the site's location and the proximity of noise sensitive premises. Please contact env.health@highland.gov.uk for more information.

Protected Species - Halting of Work

You are advised that work on site must stop immediately, and NatureScot must be contacted, if evidence of any protected species or nesting/breeding sites, not previously detected during the course of the application and provided for in this permission, are found on site. For the avoidance of doubt, it is an offence to deliberately or recklessly kill, injure or disturb protected species or to damage or destroy the breeding site of a protected species. These sites are protected even if the animal is not there at the time of discovery. Further information regarding protected species and developer responsibilities is available from NatureScot: <https://www.nature.scot/professional-advice/planning-and-development/planning-and-development-advice/planning-and-development-protected-species>

Building Regulations

Please note that Building Regulations and/or a Building Warrant may be applicable to some or all of the works described in this decision notice. You must check with the Council's Building Standards service prior to work commencing to establish what compliance or approval is necessary. If a warrant is required, you must not commence work until one has been applied for and issued. For more information, please contact Building Standards at eBuildingStandards@highland.gov.uk or on **01349 886608**.

Land Ownership/Planning Permission

For the avoidance of doubt, the existence of planning permission does not affect or supersede an individual's ownership or other legal rights. Please be advised that this permission does not entitle you to build on, under or over ground outwith your ownership or to enter private ground to demolish, construct or maintain your property.

Accordance with Approved Plans & Conditions

You are advised that development must progress in accordance with the plans approved under, and any conditions attached to, this permission. You must not deviate from this permission without consent from the Planning Authority (irrespective of any changes that may separately be requested at the Building Warrant stage or by any other Statutory Authority). Any pre-conditions (those requiring certain works, submissions etc. prior to commencement of development) must be fulfilled prior to work starting on site. Failure to adhere to this permission and meet the requirements of all conditions

Dated: 25th July 2023

David Mudie

Area Planning Manager

PLANNING PERMISSION

Reference No: 21/03811/FUL

may invalidate your permission or result in formal enforcement action.

Utility checking on site

The <https://www.linesearchbeforeudig.co.uk/> website is a self-service website to allow you to check your proposal and site for utility assets before the commencement of any development on site.

SGN Overbuild Advisory Note

There are a number of risks created by built over gas mains and services; these are:

- Pipework loading – pipes are at risk from loads applied by the new structure and are more susceptible to interference damage.
- Gas entry into buildings – pipework proximity increases risk of gas entry in buildings. Leaks arising from previous external pipework able to track directly into main building from unsealed entry.
- Occupier safety – lack or no fire resistance of pipework, fittings, or meter installation. Means of escape could be impeded by an enclosed meter.

Please note therefore, if you plan to dig, or carry out building work to a property, site, or public highway within our gas network, you must:

1. Check your proposals against the information held at <https://www.linesearchbeforeudig.co.uk/> to assess any risk associated with your development **and**
2. Contact our Plant Protection team to let them know. Plant location enquiries must be made via email, but you can phone us with general plant protection queries. See our contact details below:

Phone 0800 912 1722 / Email plantlocation@sgn.co.uk

In the event of an overbuild on our gas network, the pipework must be altered, you may be temporarily disconnected, and your insurance may be invalidated.

Further information on safe digging practices can be found here:

- Our free Damage Prevention e-Learning only takes 10-15 minutes to complete and highlights the importance of working safely near gas pipelines, giving clear guidance on what to do and who to contact before starting any work <https://www.sgn.co.uk/damage-prevention>
- Further information can also be found here <https://www.sgn.co.uk/help-and-advice/digging-safely>
